Jayant Rohila

Product Engineer: React/Next.js, full-stack, AI features

Noida, India · jrohila55@gmail.com

Portfolio: https://jayantrohila.com · GitHub: https://github.com/jayantrohila57 · LinkedIn: https://www.linkedin.com/in/jayant-rohila/ · Work GitHub: https://github.com/jayantaiqmen

SUMMARY

Product Engineer with ~2.5 years shipping React and Next.js products — validation-heavy forms and data tables, typed APIs, and AI features. Open-source work includes Loftlancer (encrypted secrets manager), Feature Kits (shadcn registry of form and data-table kits), Modelry (streaming AI lab with a credits ledger), and Lucsum (storefront for my streetwear brand).

EXPERIENCE

Product Engineer (18 May 2026 – Present)

aiQmen Designs & Technologies Pvt. Ltd. · Noida

- Building product interfaces and full-stack features with TypeScript, React, and Next.js on client software engagements.
- Own UI implementation, component structure, and API integration for product-facing features.

Associate Software Developer (18 Mar 2024 – 16 Apr 2026)

Binmile Technologies Pvt. Ltd. · Noida

- Shipped production React and Next.js features — forms, tables, REST integration, and responsive UI in a services team.
- Built and maintained client-facing UI flows with validation-heavy forms, data tables, filters, and responsive layouts.
- Integrated frontend views with backend APIs and handled loading, error, and empty states.

Full Stack Development Intern (24 Jan 2023 – 30 Apr 2023)

Teevro Solutions Pvt. Ltd.

- Structured full-stack internship — web application patterns alongside a product team.

Software Developer – Trainee (Jul 2021 – Oct 2021)

Braeon Technocrats Pvt. Ltd.

- ServiceNow administration and development during a trainee software role.
